Clean Up!

Nathan Bryon & Dapo Adeola
(Puffin, 2020)

ICEKit Summary

This ICEKit accompanies the picturebook *Clean Up!* and enables children to explore Focal Field 1: Socially responsible behaviour when interacting with others and Focal Field 2: Socially responsible behaviour – interaction with local and global issues.

The activities start by stimulating the children's curiosity in the story context by doing activities (sorting waste materials or pictures of polluted/ non-polluted places), then exploring some peritextual ponderings (the title page, the front and back covers), which contribute to children predicting

the environmental problem clearly depicted and the prompt for action taking in this picturebook. After reading aloud, the activities support children to give a personalised response and to investigate litter bins in their school; learning about different types of pollution and how they can Reduce, Reuse and Recycle to contribute to a greener lifestyle. In the *eTwinning* Taking Action Cycle children are engaged in finding out, planning and taking action as clean-up crews to improve the environment in their local communities.
